

**20  
21** | **Bay Area UASI  
PUBLIC SAFETY PREPAREDNESS SUMMIT**

**EMERGENCY  
PREPAREDNESS TRAINING**

**Disaster Preparedness for  
Organizations and Staff**

Community-based organizations (CBO) are a cornerstone of any community response plan. Keeping CBO's connected to the planning and exercise process is a vital step in executing an efficient, coordinated response.

**Incident Command Systems  
for Nonprofit Organizations**

Nonprofits, faith-based organizations, and small businesses can all use the principles of this system to ensure the safety and security of their staff, clients and property as well as coordinate with other organizations and first responders during a sustained response to disaster.

**NOVEMBER 4, 2021**

**Bay Area UASI's Emergency Preparedness  
Training for Community Based Organizations**

This featured track within the Public Safety Preparedness Summit Seminar and Training event includes two course offerings that delve into personal and organizational preparedness, as well as incident command systems for community and faith-based organizations.

Come for both sessions and the opportunity to network with fellow organizations as well as first responders and emergency managers from around the region. Lunch is included with registration.

**Register Today!**

Click here to register for the summit and sign up for this exciting training!

Information on discounted hotel rooms is also available on the Summit [homepage](#).
