

20 22

Bay Area UASI PUBLIC SAFETY PREPAREDNESS SUMMIT

SECURING THE CITIES (STC)

Protecting our communities and critical infrastructure from radiological and nuclear threats.

Detect radiation and perform reachback

Understand collection of situational awareness information

Learn how atmospheric modeling is performed

JOIN US!

NOVEMBER 2-3, 2022

Participants in the Securing the Cities (STC) track have an opportunity to engage with STC partners in an exercise environment, participate in educational sessions and receive critical training on using Personal Radiation Detector (PRD) equipment.

STC sessions will include:

- CWMD Radiological tabletop exercise
- UASI-funded FirstWatch situational awareness project
- Radiological response & recovery
- IMAAC atmospheric modeling resources
- Refresher course PER-300
